## Part 2

This is serious, that much is certain.  
If you forgot your sunscreen you may be hurtin',  
This monument is dazzlin',  
Though through streetview you ain't travelin'.  
Try another path, or it's curtains.

For the answer you must wrangle  
Visit multiple angles.  
You may be looking for days,  
But when you find a short phrase  
Its meaning you'd best untangle.

Forgive this digression,  
But as part of this lesson  
You're likely to have found  
The phrase engraved in the ground  
Responds to a specific question.

Though exactness is emphasized,  
And your answers I'll scrutinize,  
It shouldn't be a reach  
To tell me who gave the speech  
And in what language was it verbalized?
